Lifelong Learning Programme

**LEARNING PARTNERSHIPS  
GRUNDTVIG**

## **P-parents, A-dults, C-children, T-eachers (PACT) around the table**

### **13rd Evening Vocational Lyceum of Thessalonica - Hellas**

We visited with our learners ANATOLIKI and we had discussion with the Managers about the key skills that demands the global labor market. Our learners were also informed about the essential competences in order to be employable.

We visited enterprises and discussed with the workers and the managers about the business and the labor market.

These activities aimed to inform our learners about the needs of the labor market and to motivate them in order to continue their education.

Our objectives were also to enrich the qualities of our learners so that they can easily be integrated to the labor market, have a good work that they like and be able to keep it.
